

## **BCS Heritage Committee – Resident Doctor Representative**

### **Responsible Trustee and Chair**

Vice President for Digital, Communications and Marketing (Dr Rajiv Sankaranarayanan) and Heritage Committee Chair (Dr Caroline Coats, BCS Archivist)

### **Role Description**

#### **Context**

The Heritage Committee agree and oversee all logistical and organisational aspects of the museum, archive, and heritage collections in line with BCS strategic goals. The Committee provides advice to the Executive on matters relating to the archives, particularly in relation to acquisition, loans, care and preservation of the collection. A role on the Heritage Committee helps a resident doctor understand the evolution of cardiovascular medicine, from early cardiac catheterisation to modern imaging and interventional advances. It deepens appreciation of the specialty's scientific foundations and landmark discoveries that shape current practice. It also builds leadership, academic credibility, and networking within the global cardiovascular community, supporting career development. Serving on the Heritage Committee of the BCS, the world's oldest cardiac society, would suit a resident doctor interested in the broader intersections between cardiology, medicine, and society.

#### **BCS Committees**

All BCS committees sit within the brief of one of the BCS Officers of the Executive. Committees are chaired by the responsible officer or an appointed Chair.

BCS committees include elected members, co-opted members and two Resident Doctor Representatives per committee as well as officers and ex-officio of the BCS.

Each committee has its own agreed 'Terms of Reference' which set out the Committee's purpose, constitution, and meeting arrangements.

#### **Resident Doctor Representatives**

The role of the Resident Doctor Representatives on the BCS committees is to ensure that the resident doctor voice and perspective is considered and included in discussions and decision-making. The Representatives are therefore there, not only to represent their own personal views but also to ensure engagement with the wider resident doctor community in to and out from the respective committees which they should seek to do in collaboration and liaison with the BJCA President.

Resident Doctor Representatives are normally appointed on to a BCS committee for a period of 3 years with a 6-month lead in time to this 3-year period allowing for an overlap with the current Resident Doctor Representatives to support transition and continuity. The minimum attendance requirement for Committee members during their term is 75%.

In the event that a Resident Doctor Representative is going to be out of post for any period e.g. career break, parental leave, personal reasons etc., then the Resident Doctor Representative can opt to pause or postpone their term on the Committee for a fixed period if they so wish. Chairs will need to

determine appropriate interim arrangements with the respective Resident Doctor Representative and the President of the BJCA in these instances.

If a resident doctor is appointed to a consultant post during their tenure as a Resident Doctor Representative on the Committee they should notify the Chair of the Committee. However, whether they will be required to step down as a Resident Doctor Representative before the natural end of their three-year tenure will be at the discretion of the Chair for the following reasons: 1. Time it takes to find a replacement. 2. If they are near the end of their term of office on the Committee.

### **Meetings**

The Heritage Committee normally meet four times per year. Changes to the frequency of meetings will remain at the discretion of the Chair.

Increasingly work of the committee is managed outside and between committee meetings and all members are expected to engage in the work of the committee in this way.

Meetings will usually take place via Microsoft Teams to maximize attendance and ensure efficient use of members' time, but there is generally one in-person meeting a year at the BCS's headquarters in central London.

### **Improving Equality of opportunity, diversity and inclusion**

The BCS aims to improve equality of opportunity, diversity and inclusion throughout all of its activities. The Professional and Society Values Committee, which includes cross-membership from the Women in Cardiology Committee, is driving this agenda within the BCS.

The Society seeks to reflect the diverse nature of the profession and wider community. The election process and call for nominations provides an opportunity to increase the diversity of the BCS leadership and its committee membership. We welcome and encourage nominations of representatives from all backgrounds, cultures and identities, and from all the regions of the UK.

### **Reporting**

The Committee members report to the Chair of the Heritage Committee. The Chair of the Heritage Committee reports to the VP for Digital, Communications, and Marketing, with the VP reporting to the Operational Executive (for operational matters) and to the Board of Trustees (which sets and approves strategy).

### **Eligibility**

To stand for Resident Doctor Representatives posts on the BCS Heritage Committee applicants must be Associate Members of the BCS.

### **Term**

Following a 6-month lead-in period where the Resident Doctor Representatives learn from those who currently hold the role, members serve a term of three years.
