

Mohammed Ejaz Faizur Rahman

Finance Committee

I am writing to express my interest in the Resident Doctor Representative position on the Finance Committee of the British Cardiovascular Society. As a senior cardiology registrar with a subspecialty interest in coronary intervention, alongside an active portfolio in research and leadership, I believe I am well placed to contribute meaningfully while further developing my understanding of financial governance.

Since January 2023, I have served as Treasurer and Director of a national non-profit organisation. This role has provided me with hands-on experience in financial planning, governance, regulatory compliance, and resource allocation. I have worked collaboratively with fellow directors to oversee budgets, develop a financial strategy that is transparent while working towards long-term sustainability. These responsibilities are closely aligned with the committee's remit to safeguard and enhance the Society's financial position.

Alongside this, my clinical and academic roles have strengthened my leadership and communication skills. I currently serve as the rota co-ordinator for the cardiology registrar cohort at my trust. In addition, I previously held various leadership roles such as registrar lead for clinical effectiveness meetings within my department, regional trainee representative during core training, foundation year trainee representative locally and as the associate college tutor for the royal college of physicians. These experiences reflect my commitment to medical education, advocacy and inclusive decision-making.

I am particularly motivated to ensure that the perspectives of resident doctors are represented in financial discussions that shape the Society's priorities. I would value the opportunity to contribute constructively to and learn from the Committee while supporting the Society's strategic and financial objectives.
